CONTENT

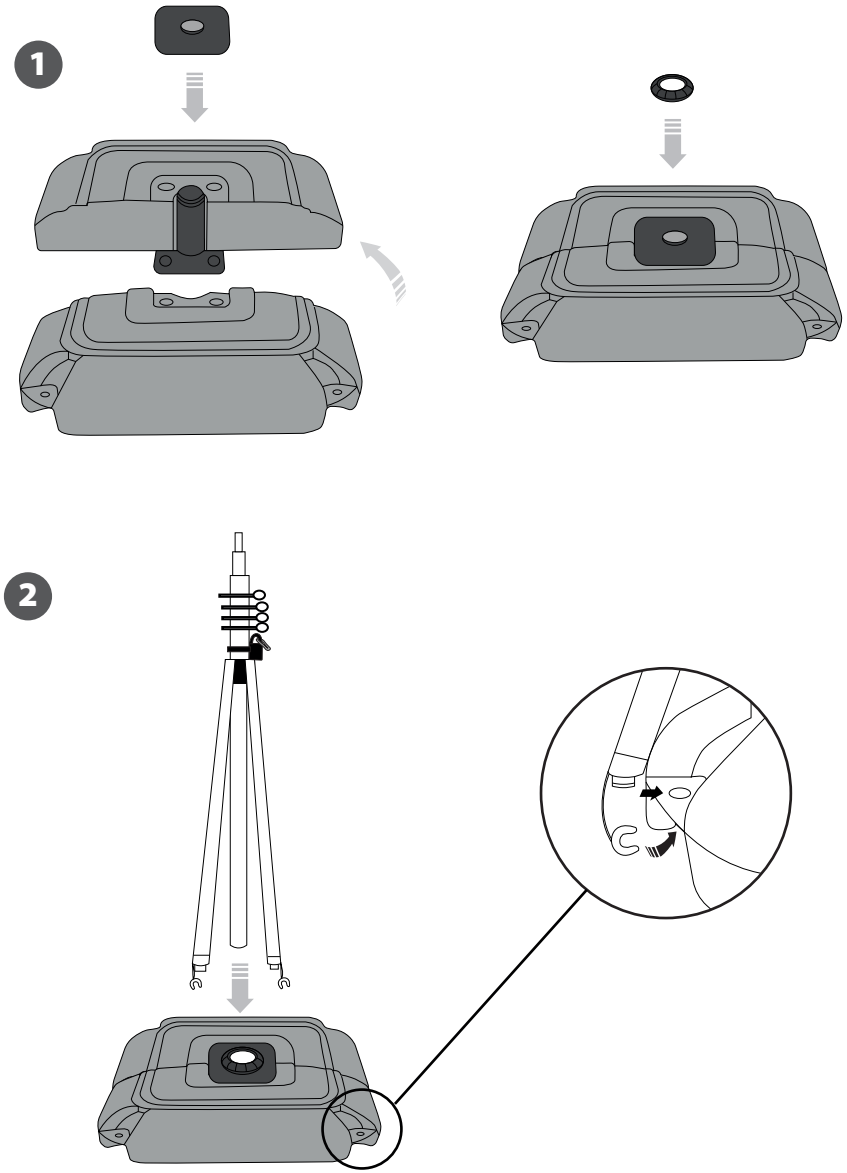

Open the bag, carefully remove all the parts, and check the contents.

First, fill the bases with water. Then attach the fillable bases. Next, install the telescopic pole and add the horizontal pole at the top by tightening the fastening screw.
After that, you can slide the telescopic pole to the desired dimensions.

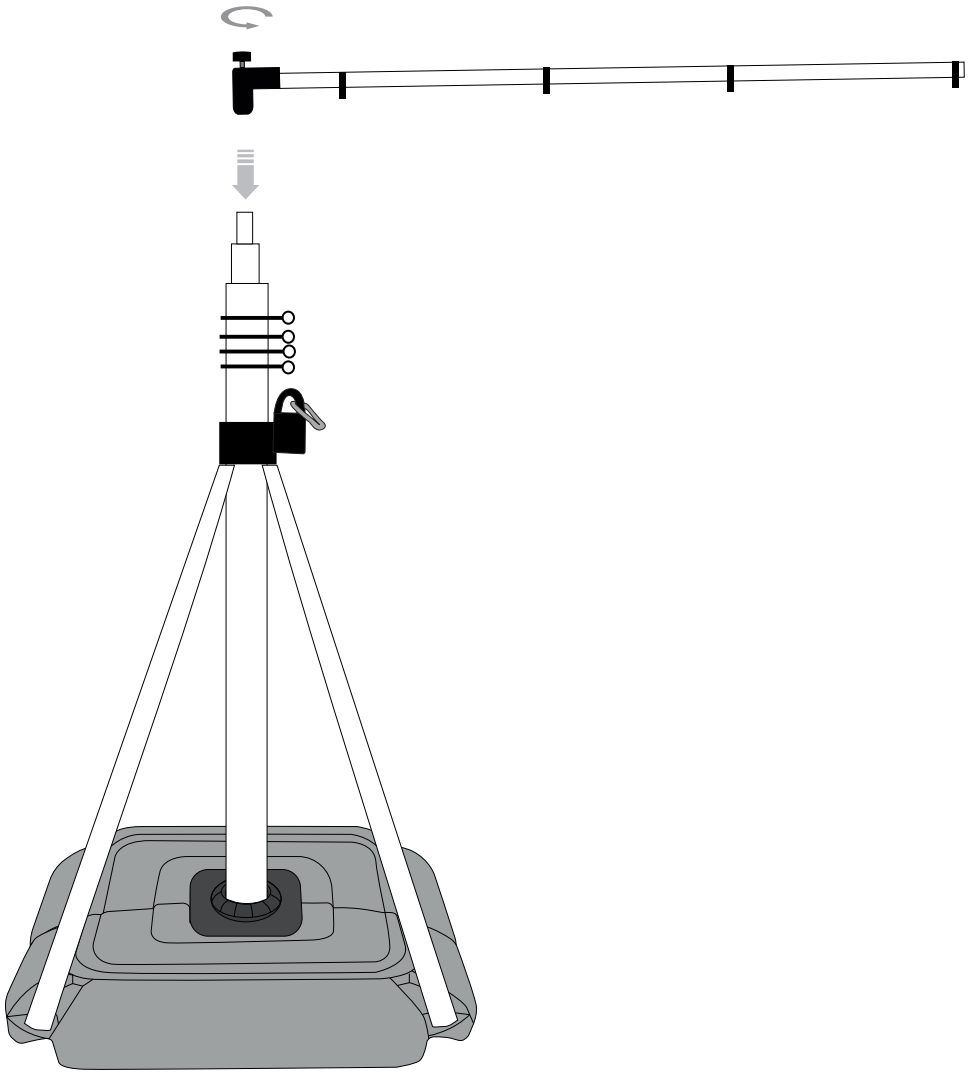

Includes 7 rings for the vertical pole and 4 for the horizontal pole, as well as a counterweight for the lower eyelet of the flag.
