1. GRAPHIC + ANTIREFLECTION PROTECTOR **PLACEMENT**

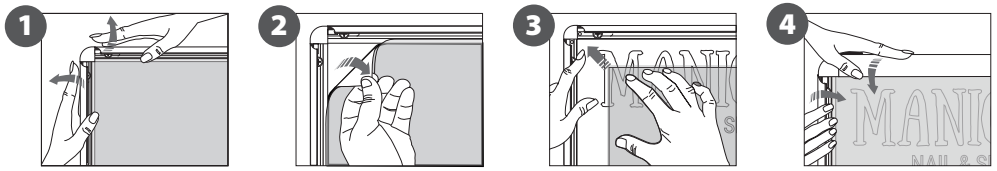

CONTENT

Open and check the content of the boxes and take out all the pieces carefully.
The Combi Click Stand System consists of an aluminium pole profile, a solid 8kg steel base and multiple possible configurations to choose from, featuring the number of literature holders trays, the possibility of incorporating one or more upper Click system frames with antireflex cover. Mount the pole with the round base first, then for setting-up frame, you must place its graphics (supplied separately) to the Click Frame following the next steps. Then hang the frames or holders to the post with the skids and screws (are included).

* ALL THESE REFERENCES HAVE THEIR POSSIBLE DOUBLE-SIDED VERSION *
